

School Setting

Institutional setting

Is it a private or public school?		
Who is responsible for maintenance and renovation of school property in order to make the school a healthy environment for children?		
Do regulations exist at governmental level about building on or renovating of school property?	Yes/No If yes, what are these regulations?	
Are financial resources available and is there willingness to cover costs for sanitary improvements?	Yes/No If yes, how much?	
What is the source of income of parents of students?		
Other relevant information?		

Environmental setting

Where is the school located?	(city / village / rural)	
Can you tell us something more about:	Rainfall pattern (When and how much)	
	Drought situation	
	groundwater situation and the Groundwater level (Likelihood of pollution)	
	Surface water (Rivers, lakes etc.)	
	permeability of soil	
	Stability of soil (ease of digging, danger of collapse)	
	frequent floodings or other natural calamities	
Does the school have or plans to have a school garden?	Yes/No If yes plans to have, when?	
Are agricultural plots nearby the school?	Yes/No If yes, how far?	
Does the school has a regular energy supply?	Yes/No What kind?	
Other relevant information?		

Demography

How many children (boys and girls separately) are at school?	
What is the age structure?	
How many classes (shifts) does the school have?	
Other relevant information?	

Current Sanitation conditions at the school

Technical issues:

What number of toilets are present at school?		
Where are the toilets located?	(inside / outside school building)	
Can you describe the current sanitation system? (you may send pictures)	Type of toilet (squatting, pedestal)	
	Collection (soak pit, septic tank, sewer line)	
	Treatment (if any)	
	Who is responsible for emptying toilets?	
Are hand washing facilities available?	Yes/No If yes, how many?	
Do children use soap?		
What is done with grey water(water from washing basins, kitchen sinks etc)?		
Are children satisfied with current toilets (location, access, use, smell, flies)?	Yes/No Why (not)?	
Can you describe how you would like to improve the sanitation situation in the school?		
Other relevant information?		

Maintenance issues:

Who is responsible for cleaning and maintaining of toilets?		
At what frequency are toilets cleaned?		
Do children use toilets at school (properly)?	Yes/No	
Are toilet facilities clean, according to the children?	Yes/No Why (not)?	

Satisfied with cleaning and maintenance of toilets.	Yes/No Why (not)?	
Does the school has plans to improve the situation/attitude for students and teachers with respect to cleaning and maintenance of toilets?		
Other relevant information?		

Gender issues

what are current practices: Shared or separate toilets for girls and boys?	
Do the current toilets offer privacy for especially students? Please, specify for girls and boys separately.	
Do the current toilets offer convenience for especially students? Please, specify for girls and boys separately.	
Do the current toilets offer safety for especially students? Please, specify for girls and boys separately.	
Other relevant information?	

Waste management

What is the collection, treatment and disposal / reuse method for solid waste and organic waste?		
Can vehicles easy access school property? (slope of street, street width, street conditions)		
Satisfied with current disposal method of waste?	Yes/No Why (not)?	
Does the school has plans to improve the situation/attitude for students and teachers with respect to garbage handling?		
Other relevant information?		

Water supply

Is the school connected to a water supply network?	Yes/No	
If yes	Is water supply regular?	
	What quantity?	
	How is the Water quality? (only drinking water quality?)	
	What is the cost of the water	

	supply?	
Are wells nearby school?	Yes/No If yes, at what distance?	
Are other water supply sources used?	Yes/No If yes, what kind?	
Do you have information about the quality of the water?	Yes/No If yes, what information?	
Does the school has plans to improve the situation/attitude for students and teachers with respect to water supply?		
Other relevant information?		

Hygiene

Is there a level of hygiene awareness? (do children know for example the importance of hand washing, use of soap or that defecation near wells can be dangerous etc)	
Does the school provide hygiene education? Yes/No	
Does the school has plans to improve the situation/attitude for students and teachers with respect to hygiene?	
Other relevant information?	

Practices

Can you tell us something about current sanitation practices of the people in the town / village (use toilets, open defecation, etc)	
What anal cleaning method is used (same at school)? (water, paper etc)	
Other relevant information?	

School attendance

When do children drop out school? Please, specify for girls and boys separately.	
Can you indicate how often children are absent because of illnesses? (diarrhea etc)	
Can you indicate how often girls are absent during their menstruation period?	
Can you indicate a difference in school results between healthy children and those which are regular ill?	
Other relevant information?
